

District Service Initiative

Project Give: Offering a Helping Hand

One can never give too much, and there is always someone in need of a helping hand. This service initiative encourages the CNH Circle K members to embrace the many ways we can give back to our community.

Providing service to those in need is what Circle K is all about. How many other people are there in the world, in the country, in this district, in our own clubs? The potential for our projects is limitless.

Offering our helping hand will allow our members to personally hand craft a special memory, a timeless moment of service that they won't forget.

Projects can include providing food for the homeless, food drives, food pantries/dinners, renovation of community centers/elementary schools/parks, donations, special programming, making care kits, blankets, and so much more!

*By offering our helping hand, we can show how much we **live to serve, and love to serve!***

Remember to send in articles and photos from your events to show all of Circle K how we are giving back to our communities. (service@cnhcirclek.org)

Take Initiative.
