

Week 10- Fall Training Conference

Good Evening Presidents!

Can you believe that Fall Training Conference is in less than two weeks?! That means half the year is already over! This week's email is going to be about **Fall Training Conference and how to make the best out of it for you and your club!**

As I've mentioned before, Fall Training Conference is just one of those events that gets everyone super excited about Circle K, new and old members alike. Here are just some good ideas to make this event amazingly fun and a learning experience for you and your members:

- **Bonding with members:** This especially goes for people driving from Southern California and Nevada. Arrange car rides and mix people up so they can get to know each other. Play car icebreakers, tell life-stories, and make CD mixes in each car. Being trapped in a car and driving for hours is the greatest way to make fast friends. You will also have all weekend to hang out with your members and be making lots of memories.
- **Go to workshops:** These workshops not only can be informative but they are also a great place to exchange ideas. There are a wide variety of workshops planned that involve training for specific board positions, learning how to manage your time, to playing fun icebreakers.
- **Make new friends:** This is the best opportunity to network! You can make friends in over 20 different schools just by going out and meeting new people. This leads to more inter-clubbing and the people you meet and work with will become some of your best friends. These are some lifetime connections that you will be making and it's a great way to work on those networking skills that you will most definitely need later in life.

Over-all Fall Training Conference can be an amazing experience if you come with an open mind and just be yourself. Just remember to relax, don't be afraid to be silly, and **HAVE FUN**. Can't wait to see you all in two weeks!
